Does Israel have  
the right to launch  
preemptive attacks on  
Iran?

- and keep US aid flow?
- Any sanctions - or  
warnings - from anyone?
- US/UN/EUR response?

6-23-8

How

If sanctions are fairly  
(yes) there is

negot!

concessions!

not trial!

— Outrageous to preclude  
BO's attempt to  
stop print a bank  
by this means!

But with sanctions  
nor negot will bring  
rapid change!

(attack right, small  
change)

Negots could rule  
out regime change  
by attack;<sup>\*</sup>

while attack could  
speed up bomb program,  
(el Baroudi) added  
as in Iraq;  
and speed others'  
programs  
(like on Iran bomb)

\* that leads to Israeli  
opposition to negots: attack  
to bar that: "Iran gets closer"

For one thing, they want Pres to have way thrust
